PROFESSIONAL HISTORY

2005 – 2010 GFI consultant for Amadeus

Amadeus is the leading provider of IT solutions to tourism and travel industry.

I am working with *Software Engineering Extended* team, which is in charge of providing support to SEP (Sales & e-Commerce Platform) division developers on development tools; it is responsible for build and local deployment of SEP Java products.

I have worked on some specific SDX projects:

Topspot: Intranet site based on Wikipedia engine (MediaWiki) - specifications, development, support.

Technical skills: PHP, MySQL, XHTML, JavaScript, CSS, Apache, Linux.

Ariane: proof of concept portlet for Liferay portal - specifications, development.

Technical skills: Java/J2EE, JBoss, Portlets, jBPM workflow engine.

PSI (Product Self Installer): tool made to ease Amadeus products installation on developer platforms - specification, development, support.

Technical skills: Ant, Java, ClearCase.

2005 – 2010 GFI consultant for Amadeus (*continued*)

I am involved in most of the team activities impacting products delivered by SEP:

- **Amadeus e-Travel Management** is an online travel booking solution used by more than 1 500 corporations in 30 countries to manage their travel policy more efficiently.
- **Amadeus e-Retail** is a fully customisable e-commerce booking solution for air, hotel, car and rail. It has been chosen by 800 agencies and 70 airlines.
- **Amadeus Selling Platform** is the world's most used retailing application for travel professionals. 400 000 users take advantage of this platform designed for travel agencies.

Java/J2EE build framework: framework maintenance and evolution; process definition and implementation validation against provided recommendations.

Technical skills: Java/J2EE, Ant, Ivy, Maven, XML, Shell, WebLogic, SQL Server.

Java/J2EE development environment: products build and installation on developers machines; development tools support.

Technical skills: ClearCase, Eclipse, WebLogic, Sun Web Server, SQL Server, Java/J2EE, Shell, XML.

Project coordination: coordination of stakeholders during new projects creation (ClearCase, builds, platforms).

2005 **5 months internship at the Préfecture des Alpes-Maritimes**

Conception of IT strategic plan for next 3 years for the Préfecture des Alpes-Maritimes.

2004 **3 months internship at VotrePharmacien**

Development of a para-pharmaceutical products e-commerce website, with a secure paiement platform.

Technical skills: PHP, MySQL, XHTML.

2003 **10 weeks internship at Database Logic**

Development of accounting components, in the insurance sector.

Technical skills: Delphi Entreprise, Microsoft SQL Server.
